

ATHENA FOUR

Do you supply and transport dangerous substances?

Are you aware of your legal obligations?

How does your company deal with changes in legislation?

Athena 4 offers all the resources you need for the supply and transportation of dangerous substances.

Athena 4, the modular classification system.

- Calculates regulatory information for preparations.
- Produces Safety Data Sheets in 21 languages.
- Contains a comprehensive database of substances in the Approved Supply List.
- Enables the design of sophisticated multi or single language CHIP labels.
- Provides a link to sales order processing software and automatically generates safety data sheets for customers.
- Creates Transport Emergency Cards in 27 languages.
- Lists all the substances with a UN number providing comprehensive information on shipping by road, rail, sea and air.
- Facilitates the speedy production of consignment documentation i.e Dangerous Goods Notes, IATA forms and Standard Shipping Notes.
- Each module is capable of running independently enabling the user to select only the modules required.

Nature of Business:

Our system comes with:

- Full on-site installation and training.
- Legislative and technical support for 2 months included in the purchase price.
- Annual support contract renewal.
- Technical and legislative upgrades to the software free of charge within the terms of the contract.

The Athena 4 system covers several important pieces of legislation concerning the classification, supply, labelling, transport and handling of dangerous substances. It is the aim of Lycos Ltd to ensure that all customers purchasing Athena 4 are kept entirely up to date with this legislation. Lycos are continually studying forthcoming legislation and incorporating the changes into the software. Before each new set of regulations comes into force, every customer receives an upgrade CD, which ensures that the system complies with all EC Directives relating to their products.
